Counselling for Life Design

Advising, counselling, assessment, interviewing, evaluation, career education, mentoring, coaching, tutoring, etc., are just some examples of the many forms of support available to individuals in their career development at different stages of their life.

What models are they based on? What conditions their effectiveness and how are they implemented? How are they related to socio-economic developments, to new training and work systems and changes in society? How can the individual's freedom of choice be reconciled with economic and businesses needs? How can these career and life development interventions fit in with the individual's autonomy?

This international conference will bring together and compare contributions from researchers and practitioners involved in life-long career development and counselling through a multidisciplinary approach.

CALL FOR PAPERS

Any theoretical, empirical or methodological paper relating to an aspect of career development and counselling may be accepted.

We are particularly interested in contributions on :

- Career counselling methods
- The use of psychometric tests in career guidance
- Distance counselling
- Career appraisals at different stages of life
- Models of interactions involved in career counselling
- Teaching information literacy tailored to specific needs
- Factors and processes of discrimination in career and life development (and life construction)
- Policies and schemes for career development programmes and interventions

CONTRIBUTORS

We welcome proposals from researchers and practitioners in psychology, sociology, economics, education, management, etc.

This international conference is open to researchers, school and career counsellors, managers, decision makers, directors of career guidance programmes, organizations or policies, as well as students.

PAPERS

The deadline for submitting a paper for oral presentation is 1st of December 2009 .

This one-page proposal (approx. 500 words) in Word format should be e-mailed to :

colloque2010-inetop@cnam.fr

Please download the document at :

<http://colloque2010-inetop.cnam.fr>

The proposals will be evaluated anonymously by two members of the scientific committee

Papers will be presented in French or in English for non-francophone authors

The conference proceedings will be published on a CD-Rom .
